## 2021 Leeu Passant Wellington Old Vines Basson Cinsault

Variety: 100% Cinsault  
Bottling Date: 12 January 2023  
Production: 680 bottles / 56 cases  
Wine of Origin: Wellington

### Vineyard details:

*The fragrant fruit and firm skins of this Old Vine vineyard has improved with every vintage since we started rehabilitating the vines by applying better sustainable farming practices in 2014. It is the oldest registered red wine vineyard in South Africa, planted in 1900 on the first selection of rootstocks available in the country. This historic parcel of dry farmed bush vine Cinsault grows on an ancient riverbed in Wellington, comprised of deep sandy alluvial soils, which provides the incredible perfume and structure in this wine.*

### Date Harvested:

*The grapes were hand-harvested during the cool morning sunrise on the 19<sup>th</sup> of February 2021 and yielded four tons per hectare which translated to twenty hectolitres per hectare.*

### Winemaking:

*To best preserve the natural tannins from the special heritage Cinsault site, we put 100% crushed whole-clusters in tank with minimal sulphur added. No further additions were made. Once the primary fermentation began spontaneously, the wine was pigeaged as often as deemed necessary. Cinsault can be a fast fermenter, so we kept the temperature cool to keep the primary fermentation at a pace to preserve the beautiful fruit profile. After three weeks of extended maceration, the wine was drained and pressed to barrel.*

### Maturation:

*This wine was matured for 22 months in 500L French oak barrels.*

### Tasting Note:

*The nose of this highly fragrant and confident heritage, old vine Cinsault, reminds one of rose petals with a hint of fresh thyme and pomegranate. The palate is silky in texture, with intricate flavours of cranberry coulis and star anise and the prominent, yet fine tannins give a beautiful structure to the wine, exemplifying the single vineyard Basson's sense of place. As this wine ages, the texture increasingly becomes plush and in laying it down will reward with more layers of complexity. Best served at 16-18°C.*

### Technical Details at Bottling:

Alcohol 14% - RS 2.0 g/l - TA 4.9 g/l - pH 3.83
